Daar Mr. Yardley,

If you are also the daily book-review editor, the enclosed may be of interest to you.

My books are the only ones based on the official evidence.

A few pretend to be and some do succeed in giving that impression. But those that do make use of some of it distort what they use and its meaning in pursuance of the preconceptions with which they bgin.

If you will read - and I'm not asking if you will review, only if you will read it- I'll be glad to send you a copy of my more or less current NEVER AGAIN!

It appeared in April and I know of no mention of it anywhere.

I think you may find the information in it of use if other books supposedly on the assassination reach you.

Sincerely,

Harold Weisberg
